

# Smart Home Security That Keeps You Connected

Enjoy a complete sense of security with a new type of system: expertly installed, customized for your home, professionally monitored, and controllable from anywhere. Alarm.com connects your whole home into a single, easy-to-use system to keep you and your family safer and more connected.

## SIMPLIFY YOUR SECURITY

Alarm.com Scenes are helpful commands that let you arm your security system, lock your doors, and adjust your lights with one touch.

## SEE WHAT'S HAPPENING

Whether you're out grabbing groceries or in your home office, you'll have eyes on important activity with HD video from indoors, outdoors, and the front door.

## TAKE ACTION FROM ANYWHERE

Did you leave home without arming the system or locking the door? We've got your back. Your system will notify you, and you can tap the alert to secure your home remotely.

## Technology that adjusts to your lifestyle

Keep your home and family safe with Alarm.com's award-winning Smart Arming feature. Smart Arming adapts to your routines and deactivates your security system automatically at a pre-set time or when motion is detected at home.

## 24/7 Professional Home Monitoring

When every second counts, you need a security system that you can rely on. Alarm.com offers 24/7 professional monitoring as an essential life safety service to quickly address emergencies and dispatch help when you need it.

### STAY SECURE

Operators can more rapidly assess a situation with People Detection, so you can rest easy knowing your home is protected around the clock in the event of a true emergency.

### STAY PROTECTED

Whether you're home or away, your monitoring service is always on guard. If an emergency occurs, your monitoring service alerts your local police, fire, or EMS to quickly dispatch help. See all of the steps an operator takes to keep you safe right in the app so you're always up to date.

### STAY CONNECTED

The cellular connection between your security panel and monitoring station can't be cut like a traditional phone line. Crash & Smash technology alerts your monitoring station even if an intruder tries to destroy your security panel. We've got your back. Your system will notify you, and you can tap the alert to secure your home remotely.

## Quickly and easily address alarms with Smart Signal

Use Alarm.com's award-winning Smart Signal feature to cancel or verify an alarm within seconds with the Alarm.com app. Smart Signal lets you communicate directly with your monitoring station to alert emergency services faster while helping you avoid false alarm fines.

## Professional Fire and CO Protection

Ordinary smoke and carbon monoxide detectors offer limited protection. Alarm.com-powered detectors work with your security system to keep you safe and professionally protected, 24/7.

### NOTIFY EMERGENCY SERVICES

If there's a fire or carbon monoxide leak in your home, your monitoring station will automatically alert first responders even if you can't call for help.

### GET INSTANT ALERTS

An interconnected system detects and alerts you to signs of danger in an instant so you can keep your home and loved ones safe and protected.

### PREVENT FALSE ALARMS

Left dinner in the oven a bit too long? Not a problem—cancel false fire alarms quickly with the Alarm.com app.

## Stop fumes from spreading with Alarm.com

When a fire starts, smoke spreads fast. Alarm.com protects you by pausing your thermostat automatically when the alarm sounds to prevent toxic fumes from spreading further.

Keep your home and family safer with customized smart security solutions that give you the freedom to live your life. Contact a local service provider or find one at [www.alarm.com](http://www.alarm.com).
